Denomination	Weinberg Dolomiten IGT
Quality line	Classic
Grape/Variety	100% Merlot
Cultivation	Espalier
Grape harvest	By hand
Vinification	Fermentation and ageing in stainless steel and old wood.

Wine description and information

Merlot is one of the world's best-known red grape varieties and also finds ideal conditions in South Tyrol for producing expressive and elegant wines. For our **Merlot TULLEDRO**, the grapes are carefully harvested by hand and fermented in stainless steel. The wine is then aged in wood, where it develops its structure and aromatic depth. In the glass, it shows an intense garnet-red colour. On the nose, it is spicy and complex, with aromas of dark berries and subtle notes of tobacco. On the palate, it is soft and well-balanced, yet firmly structured, with pronounced tannins and a long, persistent finish.

A distinctive Merlot with depth, spice and elegant power.

Pairings

Our **Merlot TULLEDRO** pairs particularly well with roasted and grilled meats, as well as rich braised dishes and mature cheeses.

Ideal serving temperature: 18 °C.
